Task

- The task
- The goal of this project

Preparation

- Possible solutions
 - MapServer
 - DIY Map

How we did it...

- Database
 - EIAO Data Warehouse
 - Very large database.
- XML
 - Manipulate the flash
 - Colors, Points etc.

How we did it...

- PHP
 - Scripts
 - Get accessibility ratings from database
 - Update the XML file.
- Javascript
 - Zoom in
 - Countries
 - Points

Solution

- Demonstration....

Future possibilities

- A GIS system with NUTS support

Conclusion

- Flash is also a good solution to build a GIS system
- The pros and cons of using flash to build a GIS system
